PLANNING FOR ENERGY EFFICIENT CITIES

- To **assess the energy-saving solutions and potentials** to be integrated in a comprehensive city planning
- To demonstrate how **integrative planning** is more efficient than separate measures
- To develop a **synergized model for energy efficiency planning** by considering the energy efficiency potential of key aspects
- To create **Action Plans** to be presented to decision-makers in the cities
- To identify the **future research agenda** on the issue of energy-smart cities
